

**DISTANCE  
LEARNING  
PROGRAMME**

**DAV  
KALINGA**

**WELCOME**

# WHAT IS DISTANCE LEARNING PROGRAMME ?

- It is a very powerful tool for distant students to gain momentum towards their aim.
- This programme provides a sound examination temperament which not only increases the student's scoring ability, but also helps the student to overcome his/her weaknesses.
- It intends to give extensive support for the preparation of **JEE (Main + Advanced)**, **JEE (Main)**, **NEET and Pre-Nurture** to make students confident in facing competitive environments.

# ADVANTAGES OF DLP:-

- The main advantage of distance learning is that it allows students to fit learning around their normal reading in a homely atmosphere.
- They can also set their own pace of study.
- It is their decision as to when and where to study.
- It doesn't matter where they live and can gain it from any distant place.
- A distance learning course often costs less than a full-time course.

# ITS REQUIREMENT IN CLASS XI

- The difficulty level of JEE and NEET is not covered by CBSE completely.
- The level of classroom teaching is often obstructed by less no. of teaching periods.
- Different level of students are enrolled in a common section.
- Students don't get opportunity to face high level questions in general class rooms.
- There is no MCQ type examination in CBSE system.

# WHY DLP FOR STUDENTS OF DAV KALINGA ?

- DAV Kalinga is situated in a remote area.
- No coaching institution in its locality.
- Students have to migrate to Kota or BBSR for coaching.
- Poor students are not getting opportunity for coaching.
- Some parents hesitate to send their wards(specially girls) to distant places for coaching.
- In past , many attempts had been taken for full time coaching by outside teachers but failed.

# OUR PLAN

- Selecting students having 70% and above marks in class X Second Pre-Board Exam.
- Enrolling all these students in one section in class XI.
- Admitting them in DLP by one of the best coaching institutions in India.
- The doubts faced by students in the study materials will be solved by our teachers in weekend classes.(Saturdays, Sundays & Holidays)
- Allowing them to appear online test series through our school computers in the presence of teachers.
- Experts will be called for clearing doubts , guidance and counseling.

# DETAILS OF WEEKEND CLASSES:-

- Per week - 10 hrs (Saturday-5 hrs & Sunday-5 hrs)
- Per month - 40 hrs (4 x 10 hrs)
- In 10 months – 400 hrs (April to Jan)
- Online Examination & Review – 100 hrs
- For Teaching purpose – 300 hrs (PHY-100 hrs, CHEM-100 hrs, MATH/BIO-100 hrs.)

# TENTATIVE FEE STRUCTURE :-

- Per hour (Coaching) – Rs 500
- For 400 hours - Rs 2,00,000
- No of students in class – 30(approx)
- Outside experts' fee per student – As applicable
- Cost of DLP and study materials per student – Rs 15,000(approx)
- Total fee per student per year – Rs 22,000
