AURA

Editorial

"Walls do not merely enclose a space; they echo with the laughter, dreams, and voices of those within."

Welcome to the Children's Day edition of **'AURA' (2026–27)**! This volume is a vibrant celebration of youthful imagination, standing at the joyful intersection where boundless curiosity meets creative expression. Far more than a simple showcase of talent, this wall magazine represents a lively, evolving dialogue between bright young minds and the timeless art of storytelling. Within these pages, readers will discover a colourful world of ideas—one that seamlessly blends playful imagination with thoughtful reflections and heart-warming creative pieces.

The works featured here capture the wonder, innocence, and fresh perspectives of our young contributors as they explore the world around them. We invite you to experience this collection not merely as an artistic display, but as a tribute to the joy of learning, dreaming, and growing together.

Wishing all our readers a joyful, inspiring, and Happy Children's Day!

MESSAGE

From the Principal's Desk....

It gives me immense pleasure to present this special edition of our Wall Magazine, "AURA," on the joyous occasion of Children's Day. This edition is a reflection of the creativity, imagination and literary talents of our young learners.

Children bring joy, hope and endless possibilities to our world. Their innocent thoughts, curious minds and creative ideas remind us that every child is unique, gifted and full of limitless possibilities. They are not just the future of our nation; they are also the creators of a better present. As educators, our greatest responsibility is to recognise their abilities, encourage their dreams and provide them with the right opportunities to grow and flourish.

We believe that true education goes beyond textbooks and examinations. It is about nurturing young minds, building confidence, developing good values and encouraging children to think independently. Every opportunity to write, create, express and explore helps them discover their strengths and become confident individuals. "AURA" serves as a vibrant platform that gives wings to their thoughts and provides space for their creative expressions to shine.

I sincerely appreciate the efforts of our creative students and the Editorial Team in bringing out this beautiful edition. May our children continue to remain curious, creative and strive towards their goals.

Happy Reading!

BEFORE THEY WERE PARENTS

As a child, I believed my parents were superheroes. They could fix broken toys, cure a fever and chase away every fear. I thought they had life figured out. Growing up, however, taught me that they, too, have fears, dreams and imperfections.

One night, I found my father sitting awake, lost in thought. His tired eyes revealed worries he had never shared. For the first time, I realized that the man who could fix everything was silently fighting battles of his own.

Another night, I found my mother crying after an argument. I wanted to comfort her but did not know how. She had always been the one comforting us. I wondered, who comforts those we believe are invincible?

As I grew older, their stories revealed dreams sacrificed, struggles endured and responsibilities carried long before I came into their lives. I realized that they were also experiencing parenthood for the first time, learning along the way without a manual.

We often forgive friends for their mistakes but forget that our parents deserve the same understanding. They are not perfect; they are simply trying their best. Perhaps growing up is not discovering that our parents are imperfect, but recognizing their humanity and loving them even more because of it.

THE SPACE BETWEEN STARS

A meditation on the things we cannot name

We spend our lives interpreting the light,
Naming each dawn, accounting for the night;
As though the world were only what we see,
A sum of things arranged in certainty.

Yet silence has a language of its own,
A thousand truths beneath its quiet tone;
The oldest questions do not ask to be
Resolved—they ask what it means to see.

A clock can measure every passing hour,
But cannot tell the season of a flower;
Maps may describe the roads that we have crosse
But not the inward distances we've lost.

Perhaps the stars are not so far away;
Perhaps they live in choices made each day—
In kindness offe
In doors left op

We are not finished things, but moving art,
A shifting constellation of the heart;
Each contradiction, failure, hope, and scar
A different way of learning who we are.

So let the unanswered questions stay;
Not every truth must find its words today.
For wonder is not ignorance or flight—
It is the mind that keeps its windows wide.

And when the dark makes certainty seem small,
Remember: darkness does not end it all.
The space between the stars is vast, it seems—
Yet it is where the universe holds its dreams.

Importance of Self-Care and Mental Well-Being for Students

Being a class 12 student, I do understand how demanding and at the same time challenging our academic journey is. Day in and day out, we strive to excel in our studies, indulge in extra-curricular activities, and manage our personal life. Amidst all this, it's important for us to understand its associated importance of having a healthy balance and keeping our minds at ease.

The teenage years are overwhelming: keeping up with grades, varying dynamics of social life, and personal growth because of this now more than ever, it is important that we practice self-care and our mental health. If we peacefully take care of ourselves both body and mind, then we will be better equipped to face the various adversities crossing our way.

It's not about indulging ourselves in pampering or only occasional treats; it's the cultivation of correct practices for well-being. Getting enough sleep, eating good food, and exercising are all self-care. Ensuring our lives allow time for enjoyment and relaxation—activities we like and love, such as reading, music, or spending quality time with our family and friends—easily makes the biggest difference on a mental level.

Moreover, discussing one's feelings and asking for assistance are signs of strength, not weakness. At an adolescent age, we could face stress, anxiety, or uncertainty about our potential. And that is exactly when the most valuable action would be to turn to peers, parents, or mentors for support. Let's break the stigma associated with mental health conversations, organizing a successful environment where getting help is something prestigious and appreciated.

As we hustle through Class 12, let's remember to keep our well-being at par with our academic success. In this way, we will be certain to have a student life in which we can strive to be more balanced and fulfilled with the incorporation of self-

Take care of yourself and others; thrive academically and personally!

My Grandparents in My Dream

Last night, when stars adorned the sky,
I closed my eyes and wondered why;
A gentle breeze came through my room,
And brought my grandparents in my dream.

Grandfather smiled, so warm and bright,
Like a guiding star in the quiet night.
Grandmother held my hand with care,
And filled my heart with love to share.

We walked together through fields of green,
The loveliest place I had ever seen.
They told me stories from days gone by,
Of courage, kindness, and reaching high.

Their words were soft, their wisdom deep,
Like treasured secrets I'll always keep.
They taught me to be brave and kind,
To speak the truth and have a thoughtful mind.

Then morning came with golden light,
And slowly faded my dream of night.
But all their love still stays with me,
A precious gift for eternity.

Though dreams may end when day is new,
Their loving lessons will guide me through.
My grandparents are my shining beam—
Forever cherished, in life and dream.

The Golden Rule

Waking up when morning shines,
Walking straight in tidy lines,
Brushing teeth and dressing neat,
Makes our morning routine sweet.

Listening well to what is taught,
Keeping every kindly thought,
Raising hands before we speak,
Helps us learn throughout the week.

Doing homework right on time,
Makes our daily habits rhyme,
Putting toys and books away,
Keeps our room clean every day.

Playing fair and sharing cheer,
Helping friends when they are near,
Discipline is the golden key,
To be the best that we can be!

The Art of Rising after Every Fall

Life is not always a Piece of cake rather it is a series of unfold incidents. It is not always a journey of happiness, success and beautiful experiences. Sometimes it brings painful experiences, disappointment and failures. But the true art of Living is about rising after every fall - every time when life pulls us down, we should learn the lesson which life wants to teach us. Every failure makes us wiser.Just how a child tries thousands of times to walk every time he falls. Rising after every fall does not define that we scare to lose rather it shows our courage to never allow the setbacks to influence our journey. We must learn to turn our weakness to strength. Our mistakes to lesson and our dream to determination.

We may lose support, face criticism but we should not never give up rather we should overview it and learn from our past experiences. Remember: Success is not measured by how many time we win, by how many times we gather courage to begin again. So never be ashamed of your falls because they are part of your story. So proud of every little step you take towards rising again. Life will test your patience but don't let you define it. Courage speaks louder than fears. Fall seven times rise eight times and keep moving forward because your greatest victory may be waiting just beyond your imagination.

The Lord Of Universe

The Lord of the Universe
With round, bright eyes that never close,
You watch the world in calm repose.
A gentle smile upon Your face,
You fill our hearts with endless grace.
No hands to hold, yet You embrace,
The rich and poor in every place.
With brother Balabhadra near,
And sweet Subhadra ever dear.
When chariots roll in grand array,
And drums and cymbals lead the way,
A million voices loudly sing,
To praise the universe's King.
In sacred wood, Your spirit shines,
Beyond the walls of earthly shrines.
O Jagannath, our guiding light,
Keep every soul within Your sight.

A BEAUTIFUL BOND OF FRIENDSHIP

Friendship is a beautiful flower,
That blooms with love in every hour.
A little laughter, a little care,
A precious bond beyond compare.

A friend is sunshine on a rainy day,
Who makes the sadness fade away.
Through every storm, through every tide,
A true friend always stands beside.

No need for words, no need to say,
A friend can understand in every way.
Through silly fights and endless fun,
Together we shine like the morning sun.

Friendship is not about being together every day,
It's about being connected, even when miles are away.

My Mother, My World

You are the sunshine in my day,
You guide me through life's every way.
Your gentle words, your loving smile,
Make every moment worthwhile.

Oh Mother, Mother, you are my light,
You make my world so warm and bright.
You are my angel, my shining star,
My guiding light wherever you are.

You hold my hand when I feel low,
You teach me everything I know.
Your love is precious, pure and true,
My sweetest blessing is having you.

Oh Mother, Mother, you are my dream,
You make my life a beautiful theme.
No one can ever take your place,
My heart is filled with your embrace.

Thank you, Mother, for all you do,
My whole world is beautiful because of you.
Today, tomorrow, forever you'll be,
The most special person in my destiny.

The Beauty of Behaviour

Our behaviour defines who we are,
Not our wealth, nor how far we go.
A single word can build a heart,
Or leave a wound that doesn't show.

Respect is wisdom, kindness is grace,
Good manners give our lives a place.
Yet day by day, we seem to forget,
The values our hearts should never neglect.

Education is more than books we read,
It's kindness, respect and every good deed.
Speak with sweetness, let anger depart,
For beautiful words reflect a beautiful heart.

AURA

The Stars Above

We look towards the heavens above,
And call the stars always so bright,
But do they, from on high, observe
Our lives by stolen, borrowed light?

They see our cities come alive,
They see us hurry and arrive,
They see a baby who laughs,
They see a mother who cries and grieves.

They watch as our constructions reach,
Then fall and fade into the breach.
They watch our wars, our songs, our art,
Our vulnerable hearts and hands.

Maybe we look to them like fire,
Blossoming just once in one single tire.
But each and every one of us,
Even as small and transient as we may be,

Do manage somehow still to be,
In this big, silent space,
The deep blue sea.

अंकों की दौड़ में खोता बचपन

कभी मिट्टी में सपने सजाती थी,
कभी बारिश में खिलखिलाती थी।
न चिंता थी कल की, न अंकों का भार,
बस छोटी-सी दुनिया और खुशियों का संसार

फिर हाथों में किताबें थमा दी गईं,
खेलने की घड़ियाँ परीक्षा में बदल दी गईं।
हर सुबह एक नया लक्ष्य सामने आया,
बचपन ने हँसना छोड़ा, अंकों से रिश्ता बनाया।

किसी को चाहिए पहला स्थान,
किसी को चाहिए सबसे ऊँची उड़ान।
पर इस दौड़ में कोई यह न जान पाया,
किसने उस बच्चे का बचपन चुपके से चुराया?

रिपोर्ट कार्ड में अंक तो दिखाई देते हैं,
पर अधूरे सपने कहाँ दिखाई देते हैं?
प्रतिशत से भविष्य का अनुमान लगाया जाता है,
पर बच्चों का हुनर अक्सर अनदेखा रह जाता है।

उन्हें उड़ने दो, केवल दौड़ना मत सिखाओ,
अंकों के साथ जीवन के अर्थ भी समझाओ।
क्योंकि बचपन दुबारा लौट कर नहीं आता,
और हर सफल इंसान अंकों से नहीं पहचाना जाता

जब मैं छोटा था

मुझे आज भी याद है जब बारिश होती थी तो मैं कागल की नाव बनाकर पानी में छोड़ देता था, और दोस्त से कट्टी करके फिर दो मिनट में मान जाता था। स्कूल जाने के समय भारी व्याग उठाकर बस भागना और छुट्टी होते ही चिल्लाना, माँ से छुपकर मिठाई खाना और डांट सुनकर भी मुस्कुराना । ना होमवर्क की कोई टेंशन थी ना सुबह उठने का कोई बड़ा डर था ।दोपहर में कड़क धूप में भी बिना चप्पल पहने साईकिल लेकर चलाना बहुत याद आता है । शाम को जल्दी घर आकर पढ़ाई करने बैठ जाना बहुत अच्छा लगता था। दोस्तों के साथ छुपकार आम के पेड से आम तोड़ना और काका आने पर वहाँ से भाग जाना। पर अब जब बड़े हो गए है तो वो सब बाते तो खाली यादे बनकर हमारे दील के अदर ही रह गई। सच मे वह दिन सबसे अनोखे थे उनकी जगह अब कोई नही ले सकता है। मेरा वह पुराना बचपन ही सबसे अच्छा था ।

तकनीक का नया प्रभात: AI और मानव संकल्प

मानव सभ्यता का इतिहास खोज, परिवर्तन और क्रांति का इतिहास रहा है। जब मनुष्य ने पहली बार आग जलाना सीखा था, तब से लेकर आज डिजिटल युग तक, हमारी हर नई खोज ने जीवन जीने के तरीके को एक नई दिशा दी है। आज हम एक ऐसे ही ऐतिहासिक मोड़ पर खड़े हैं, जिसे 'कृत्रिम बुद्धिमत्ता' यानी AI (Artificial Intelligence) का युग कहा जाता है।

AI केवल कोडिंग, एल्गोरिदम या मशीनों का एक समूह नहीं है; यह इंसान की असीमित कल्पनाओं और उसकी दूरदर्शिता का प्रतीक है। जिस तरह पहिए के आविष्कार ने हमारी शारीरिक दूरी को कम कर दिया था, ठीक उसी तरह AI हमारी बौद्धिक क्षमताओं को नया विस्तार दे रहा है। आज AI की मदद से चिकित्सा के क्षेत्र में ऐसी बीमारियों का इलाज संभव हो रहा है जिन्हें कभी असाध्य माना जाता था। वैज्ञानिक अंतरिक्ष की अनसुलझी पहेलियों को सुलझा रहे हैं, और किसान अपनी फसलों को मौसम की मार से बचाने के लिए सटीक डेटा का उपयोग कर रहे हैं।

लेकिन किसी भी महान क्रांति की तरह, AI को लेकर भी मन में कई आशंकाएँ और प्रश्न उठते हैं—"क्या मशीनें इंसानों की जगह ले लेंगी?", "क्या तकनीक हमारे अस्तित्व पर हावी हो जाएगी?"

इन सवालों का उत्तर तकनीक में नहीं, बल्कि हमारे दृष्टिकोण में छिपा है। मशीनें हमें डेटा दे सकती हैं, लेकिन संवेदना और विचार केवल इंसान के पास हैं। एक AI खूबसूरत चित्र बना सकता है, लेकिन उस चित्र के पीछे की पीड़ा या खुशी को महसूस नहीं कर सकता। AI कविता की पंक्तियाँ लिख सकता है, लेकिन किसी के दर्द को बांटने वाली सहानुभूति केवल एक इंसान ही जता सकता है। AI का असली उद्देश्य इंसान को विस्थापित करना नहीं, बल्कि उसकी क्षमताओं को और आगे बढ़ाना (Augment) है।

यह नया युग डरने का नहीं, बल्कि सीखने और ढलने का है। जैसे बहती नदी अपना रास्ता खुद बना लेती है, वैसे ही मानव मन भी हर नई चुनौती और तकनीक को अपनाकर आगे बढ़ता आया है। AI हमारे लिए एक ऐसा कैनवास है, जिस पर हम अपने भविष्य की नई तस्वीर चित्रित कर सकते हैं।

कहा भी गया है—

"तकनीक केवल एक माध्यम है, असली शक्ति मानव के विचारों और उसके संकल्प में होती है।"

आने वाला कल इस बात से तय नहीं होगा कि AI कितना बुद्धिमान है, बल्कि इस बात से तय होगा कि हम इंसान के तौर पर उस बुद्धिमत्ता का उपयोग समाज के कल्याण, पर्यावरण की रक्षा और एक बेहतर दुनिया के निर्माण के लिए कैसे करते हैं। AI के इस नए प्रभात में, आइए हम तकनीक को अपना साथी बनाएं और एक उज्ज्वल भविष्य की ओर कदम बढ़ाएं।

पर्यावरण संरक्षण

पर्यावरण केवल हमारे चारों ओर फैली प्रकृति नहीं, बल्कि हमारे अस्तित्व का आधार है। पेड़ हमें सांसें देते हैं ,नदियाँ जीवन देती हैं और धरती हमें भोजन प्रदान करती हैं। फिर भी मनुष्य अपनी प्रगति की दौड़ में प्रकृति का संतुलन बिगाड़ता जा रहा है ।

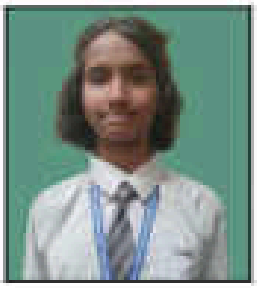

पर्यावरण हमारे जीवन का आधार है। पेड़-पौधे, नदियाँ, पहाड़, हवा और जल प्रकृति के अनमोल उपहार हैं। आज प्रदूषण, वनों की कटाई और प्लास्टिक के बढ़ते उपयोग से पर्यावरण खतरे में है। पर्यावरण की रक्षा करना हम सभी का कर्तव्य है। हमें अधिक से अधिक पेड़ लगाने चाहिए, जल बचाना चाहिए, प्लास्टिक का उपयोग कम करना चाहिए और अपने आसपास स्वच्छता बनाए रखनी चाहिए।

बढ़ना प्रदूषण वनों की कटाई और जल की बर्बादी भविष्य के लिए गंभीर चुनौती बन चुके हैं। पर्यावरण की रक्षा करना केवल सरकार की जिम्मेदारी नहीं, बल्कि प्रत्येक नागरिक का कर्तव्य है। याद रखें – पर्यावरण बचेगा, तभी जीवन बचेगा।

महाभारत - एक युद्ध, हजारों कहानियाँ

गंगा की लहरों से शुरू हुई, हस्तिनापुर की कहानी,
भीष्म की प्रतिज्ञा से लिखी गई, त्याग की अमर निशानी ।

एक ही आँगन में पले थे, सौ कौरव और पाँच पांडव,
पर सिंहासन की चाह ने, बना दिए सब एक दूजे के प्रतिद्वंद्वी ।

लाक्षागृह की आग, चौसर का छल,
द्रौपदी का अपमान और वनवास का पल ।

एक ओर था अहंकार दूसरी ओर अधिकार,
कृष्ण ने माँगी शांति, पर युद्ध था तैयार।

फिर गूँजा शंख कुरुक्षेत्र में, काँप उठा आसमान,
अर्जुन के संशय को हरने, कृष्ण ने दिया गीता का ज्ञान ।

भीष्म की प्रतिज्ञा, कर्ण का अभिमान,
द्रोण का पराक्रम, अभिमन्यु का बलिदान ।

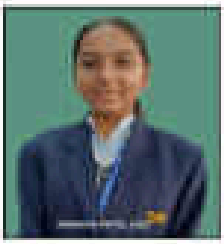

अठारह दिनों का युद्ध था, हर ओर बस हाहाकार ,
जीत के मुकुट के पीछे छिपा था अपनों का संसार ।

सिंहासन मिला, पर शांति कहाँ ?
इतने अपनों के बिना, वह विजय क्या था महान ?
युग बीत गए, पर गूँज वही तलवारों की है।
आज भी चर्चा होती उन वीरों के वारों की।

इतिहास के पन्नों पर एक ही संदेश लिखा है,
धर्म के आगे झुका है हर अहंकार बड़ा है।
यतो धर्मस्ततो जयः ।

समयस्य महत्त्वम्

किम् भवन्तः जानन्ति यत् संसारे किम् अस्ति मुल्यवत् ? कः वदति धनम् , कः वदति मानः , कः वदति विद्या , कः वदति बुद्धिः , कः पुनः वदति पुत्रः ....

परन्तु वास्तविकता अस्ति यत् संसारे महत्त्वपूर्णः अस्ति , असीत् भविष्यति च "समयः"। समयः नित्यः , सनातनः , अखण्डः शाश्वतः च ।

समयः एव बलवान् , समयः एव मूल्यवान् । यः पुरुषः समयस्य महत्त्वम् अवगच्छति सः एव मन्यते श्रेष्ठः । समाजे तस्य प्रतिष्ठा भवति । गतः समयः पुनः न आगच्छति अतः तस्य महत्त्वं पूर्णतया अवगन्तुं प्रयत्नं कुर्याम ।

समयः यदि सम्यक् उपयुक्तः भवति तर्हि तस्य परिणामः सुखदायकः एव इति मन्यते । अन्यथा जीवनम् दुःखयुक्तम् भवेत् । एतत् स्थिरतरं ज्ञात्वा एव वयं समयस्य महत्त्वम् अवश्यम् अनुभवाम जीवनं रसमयं च कुर्याम ।
